### Growth in shipment of HVA products and its share in overall sales volumes, thousand tonnes

Source: MMK
MMK continues to view the domestic market as the priority, both in terms of proximity to key customers and the high quality of products sold.

In Q3 2013 average realised domestic price per tonne of steel products went down 5% q-o-q and amounted to USD 637. For the same period average realised export price per tonne of steel products went down 3% q-o-q and amounted to USD 481.

Due to the high share of HVA products in MMK’s domestic sales, the average price per tonne of steel products on the domestic market historically was higher versus the average export price. Thus, in Q3 2013, the average price on the domestic market was $637, while the average price on the export market was $481.
