Dividends

- As the management sees that the Company is able to generate strong free cash flow and taking to account the significant decline in debt load, it decided to recommend that the Board of Directors of OJSC MMK increase the dividend payout ratio for 2H 2016 to 60%. This growth will not only increase the shareholders' participation in the Company's results, but also share part of the profit from the sale of FMG share with the shareholders.
- The management continues to adhere to the strategy of increasing return on equity, and plans to offer the Board an increase in the dividend payout ratio to at least 50% of free cash flow.

- Total sales volume on the Russian and CIS market in Q4 2016 was 2,131 ths tonnes, up 139 ths tonnes, or 7.0% q-o-q. This was due to the recovery of domestic demand on the back of anticipation of prices growth.
- Share of construction products (coated products and long products) declined in the sales structure due to seasonality.
- This decrease resulted in lower share of shipments to the construction industry.

- Sales on international markets in Q4 2016 amounted to 752 ths tonnes, down 117 ths tonnes, or 16.5% q-o-q. This decline was due to uncharacteristic recovery in the domestic demand on the back of anticipation of the domestic steel prices growth, following a speculative spike in coking coal prices.
- In Q4 2016, uncharacteristic growth in domestic demand made it possible to increase the share of local sales. This resulted in decline of export share to 26% (as compared to 30% in Q3 2016).
- In Q4 2016, the Company continued to reduce sales to the European markets, which was offset by higher sales on other markets.

- Average sales price in Q4 2016 increased by 6.5% q-o-q due to maintained high steel prices on the international markets on the back of higher coking coal prices and an increase in iron ore prices which started at the end of the quarter.
- EBITDA for the Russian steel segment (adjusted for the effect of the sale of MMK's remaining shares in FMG) in Q4 2016 decreased 5.8% q-o-q. The decline was mainly due to higher prices of key raw materials.
- EBITDA for the coal segment in Q4 2016 grew 107.7% q-o-q due to the significant growth in global and domestic prices for coking coal at the year-end.
- EBITDA for the steel segment (Turkey) in Q4 2016 amounted to USD 8 mln, improving to a "normalised" level following lower results in Q3 2016.

- MMK Group's net debt as of the end of 2016 decreased by USD 932 mln from 31.12.2015 to USD 192 mln.
- This decrease supported a further reduction in the net debt/ EBITDA ratio to 0.1x.
- In accordance with the company's financing strategy, the company will attract long-term borrowing to finance the purchase of equipment for major investment projects under coverage of export credit agencies. The rest of the investments will be made using the company's own funds.

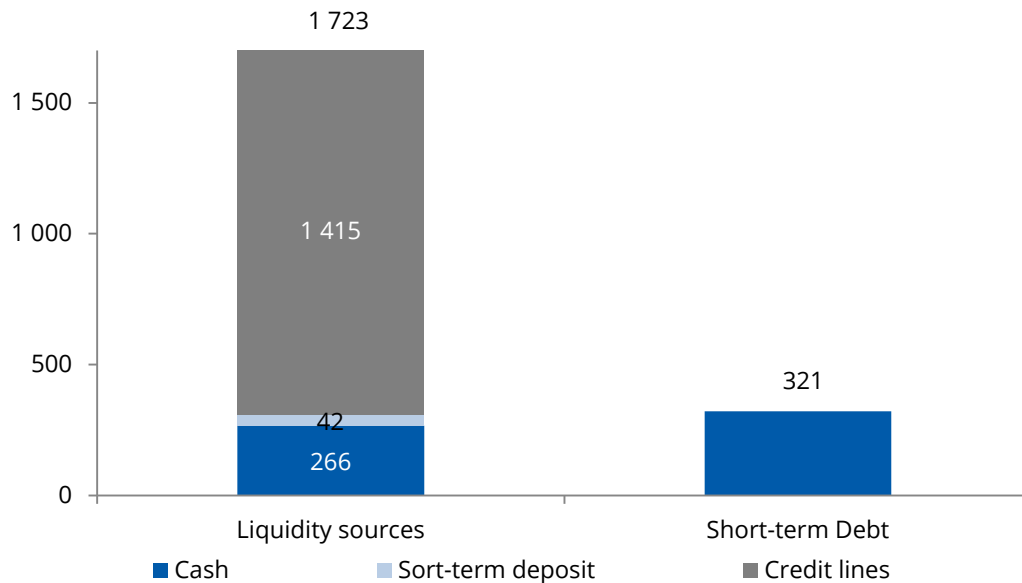

- The share of debt which is denominated in foreign currencies (USD+EUR) amounted to 67% as of 31.12.2016.
- The volume of cash funds and short-term deposits in the MMK Group's balance sheet (USD 308 mln) almost fully covers the short-term debt of MMK Group.
- The debt maturity schedule does not presume any significant one-time payments.

- In early 2017, given seasonally weaker demand for steel on the domestic market, the Company has scheduled maintenance of a blast furnace and converter.
- Financial performance in Q1 2016 is expected to come under pressure from the high base of coking coal prices and seasonal growth in prices for metal scrap.
- In general, the Company's management believes that, in 2017, the demand for steel in Russia may be 1-2% higher y-o-y, making it possible for the Company to maintain sales volumes. Following the completion of the investment cycle, management plans to increase coking coal production at Belon mines by 600,000 tonnes in 2017.
